

## Using Google Classroom at Home

Go to <https://classroom.google.com>

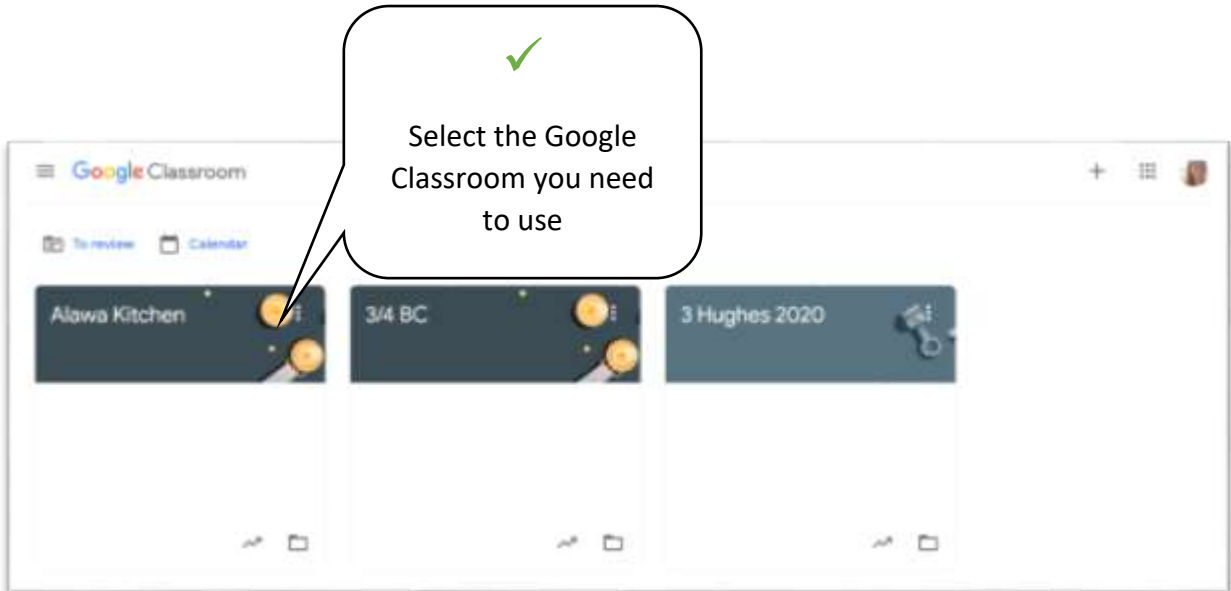

You will then need to enter your ntschools log on using your full [firstname.lastname@ntschoos.net](mailto:firstname.lastname@ntschoos.net) log in so that Google knows that this is the system you need to access.

✓  
Include  
'nts.schools.net' on this  
screen

From here you can access Google Classrooms the same way that you do at school

✓  
Select the Google  
Classroom you need  
to use

This menu allows you to switch between  
nts.schools.net and your private account if  
working at home
